Industry Updates

DP World Booking System Melbourne Greater Lead Time Required

As you may be aware some changes relating to DP World's booking system have recently been introduced. DP World will now utilise the 1-stop booking system for all timeslots to/from DP World – this does not include WSIT – effective Thursday 8 December 2011.

As part of this change, a greater lead time is required to confirm timeslots – previously 24hrs notice was required but this has now been extended to 48hrs notice. Thus, timeframes for finalising your timeslot requests are as follows:

Tuesday to Thursday timeslots must be confirmed 48hrs prior to required timeslot date.

Saturday to Monday timeslots must be confirmed by 2.00pm the previous Thursday.

Clients with import jobs booked that do not have a delivery time are encouraged to work closely with their Client Service Representative to ensure an even spread of timeslots.

It should also be noted that export timeslots are now required to adhere to the same timeframes.

The ability to cancel timeslots after confirmation has now been abolished and as such any late amendments to your timeslot requirements may be subject to a missed time slot charge.

We appreciate your cooperation in this matter and if you have any concerns please contact your Client Service Representative.

MSC / UASC / NYK & OOCL Suspension of Sydney Port Congestion Surcharge

The current congestion situation at Sydney Port is still not optimal and continuing to add costs for most shipping lines to service Sydney. Shipping lines are working closely with their service providers to continue to monitor and improve the service level, and will make the appropriate revisions when necessary.

Please note the above listed shipping lines have all advised that they will be suspending their current Sydney Port Congestion Surcharge into Sydney.

Please refer to the following table for full surcharge details.
