

# Toll Group Acquires Asia-Europe Sea Air Provider

---

March 2011

Toll Group is delighted to welcome SAT Albatros a Dubai based market leading provider of Sea-Air Services to the business.

Forming part of Toll Global Forwarding, the new Sea-Air specialist will fit a niche in the company's portfolio, offering customers an alternative option for transporting freight between Asia and Europe over traditional full ocean or full air freight.

Toll Group's Managing Director, Paul Little AO said, "The acquisition of SAT will further cement Toll's strategic position in the Middle East and in the Asia to Europe trade lane".

"Building our business with a niche Sea-Air provider gives us further scope to offer our customers the opportunity to match speed to market with a cost-effective service.

For customers who want to transport goods quickly but keep costs down, this integrated option can offer significant cost savings over pure air freight."

"With a strong customer base and as the market leader in this service offering, SAT will support our intention to further develop in this market. The integration of SAT will allow us to secure a blue-chip well-established customer base principally consisting of European fashion apparel, electronics, and consumer goods conglomerates sourcing products from Asia."
